

Energy Insulation Skills Programme

Background

The Green Deal has been established to revolutionise the energy efficiency of properties by giving consumers an opportunity to make energy efficiency improvements they may otherwise not have been able to afford. Millions of owner-occupiers and tenants are set to reap the rewards of better energy efficiency from Green Deal funded improvements.

The UK green sector is a success story, it is the sixth largest in the world and has a crucial part to play in building a strong economy. The Green Deal will support thousands of jobs, not just over the next few years, but in the long-term too.

There is huge demand for highly skilled and qualified workers with knowledge of: EWI - External Wall Insulation, IWI - Internal Wall Insulation, Cavity Wall Insulation, Loft Insulation, Asbestos Identification Awareness, Energy Awareness Advisory Skills.

About the course

The Energy Insulation Skills Programme has been designed to cover a range of building insulation skills that are in demand. The course focuses on hands on training required by employers to ensure individuals have the best opportunity to move into one of the many roles on offer in this developing sector.

Who is the course aimed at?

Those looking to take advantage of the many job opportunities within the energy efficiency sector and learn new skills to help them achieve their career goals.

How long is the course?

The course duration is 10 days.

Do I need to have any other qualifications or experience to take part?

No, there are no formal entry requirements for this course. However we ask that learners are comfortable with a short written test as part of the assessment and have confidence in achieving a Level 2 qualification.

What Qualification will I receive on successful completion?

Level 2 Certificate in Insulation and Building Treatments

Where will the training be delivered?

Group Horizon have a national network of first class training facilities specifically designed to offer the best mix of classroom and practical learning. At one of our centres you will be surrounded by the most up to date equipment and tools relevant to this sector.

What are the career opportunities within this sector?

The Green Deal is set to support thousands of jobs in the UK. The resulting growth of the domestic energy efficiency sector means that the practical skills and knowledge taught on this course are in demand. Roles such as Assessors, Advisors and Installers are being advertised across the country.

About Group Horizon

Group Horizon are specialists in Renewable and Energy Efficiency training. We are proud to offer the highest quality trainers, venues and accreditation as well as a wealth of industry knowledge and experience. We work with individuals and organisations including some of the largest manufacturers and installers in the UK.
